

**THE VALLEY FARMER.**

With the commencement of the New Year, the undersigned will issue a monthly publication with the above title, to be devoted to the interests of that portion of the community engaged in Agriculture; embracing in its scope all that pertains to the Plantation, the Farm and the Garden.

The importance of St. Louis, in a commercial view is admitted by every one. Here the farmer and the merchant look for the market for the produce of the country, as well as for merchandise. Hence, this city is the centre whence emanates intelligence to the surrounding country. This, then, is the appropriate place for the publication of a journal devoted to the interests of those engaged in that noblest of all pursuits—the cultivation of the soil; for at no other point can the editor so effectually hold intercourse with the farmers, and learn their wants, wishes, and opinions, or so readily distribute his publication throughout the length and breadth of our great fertile Valley.

The VALLEY FARMER will be of a practical character. We shall aim to render ourselves particularly welcome in the houses of the small farmers, the new settlers, and those just settling out in the business—men who have often too much occasion to feel, when reading the agricultural works of the day, that they are not printed for persons in circumstances similar to theirs, but for men who have surplus capital to invest in costly experiments, or expensive implements, or in a system of extended operations, while their humbler wants and wishes are entirely overlooked. While, therefore, we shall by no means disregard the welfare of those engaged in the business on a large scale, we shall also endeavor to be useful to that more numerous class of our fellow citizens whose operations are necessarily more circumscribed. The farming interests of the people of the Valley of the Mississippi, and the application of the principles of science to its climate and soil, are the objects which we have in view. Arrangements have been made, and are making, to secure the contributions of some of the best practical agriculturists of the country to its pages, and no expense or labor will be spared to present the friends of agricultural science a work from which both profit and may be derived.

Experience has abundantly proved that a mixed agriculture is essential to the prosperity of the country; and therefore we shall uniformly discourage the culture of any one staple to the neglect of others. Hemp, Tobacco, Wheat, Corn, Flax, Hay, Oats, Barley, Castor Beans, together with various other articles, are all profitably raised in the different sections of our valley. The horse, the ox, the mule, the sheep, the hog, &c., are all worthy the attention of the farmer, both for use at home and for market. All these will be kept prominently in view, and each will receive attention at our hands. Consistent with the true position of the farmer is not as generally admitted as it should be, we design to give a concise "History of Agriculture," its benefits, and the great dependence of other pursuits on this class of our fellow-citizens. Our aim, in short, will be to make the VALLEY FARMER inferior to no similar publication in the United States; and being designed expressly for the farmers of the West, and published at a cheaper rate than any other similar work we can confidently call upon them to subscribe. Its superiority over eastern publications will consist chiefly in the applicability of its articles to this section—the West.

To the Garden and the Orchard, we shall devote no inconsiderable portion of our pages, and also to the proper care and treatment of the various animals and fowls. The improvement of the breeds of our domestic animals; new inventions in agricultural implements; the chemical analysis of soils; new systems of cultivation; improvements in farm houses and other buildings; the rotation of crops, etc.; the changes in the political world affecting our domestic and foreign markets; new avenues for the transportation of our surplus produce, or improvements in old ones—all will receive attention at our hands. We design to devote a portion of each number of the Farmer to *Floral Affairs and Household Economy*. In this department we have the assurance of valuable assistance from some of our fair friends, and we hope that others will favor us with the productions of their pens.

The engravings and embellishments of the VALLEY FARMER will be equal to those of any of its contemporaries, and its whole appearance will be a creditable specimen of the present advanced condition of the art of printing.

**TERMS.**—The VALLEY FARMER will be published on the first of each month, on a new and clear type, each number containing 20 large double octavo pages, besides a cover of four pages for advertisements, making at the end of the year, a volume of 240 pages (exclusive of advertisements) with a full page and index, and containing as much matter as is usually embraced in two ordinary sized octavo volumes of 500 pages each, and will be sent by mail or otherwise to subscribers in any part of the Union, at the following rates:—payments in all cases to be made in advance:—

One copy, one year, \$1; six copies, \$5; 12 copies, \$10; 27 copies, \$20; 42 copies, \$30; 72 copies, \$50.

Remittances may be made by mail at our risk. The first number will be issued so as to reach all the postoffices in this and the adjoining States by the first of January, 1849. Postmasters are authorized and requested to act as agents for us. Those sending us clubs exceeding six in number, will be entitled to the Farmer one year without charge.

**PICKERING, PENN & Co.**

1848.] **JOHN T. MARTIN'S** [1848.

*Far famed & noted Established Warehouse For Cheap & Fashionable CLOTHING.*  
No. 118,  
Formerly No. 114, Main St., St. Louis.

*Motto—I am determined to sell lower than any other house in the U. States.*

**TREMENDOUS EXCITEMENT!**  
Goods are rushing in by every packet. The house is now filled! Three large stories crowded with goods! My stock this fall will be tremendous large, by far exceeding any ever before received, and at such low prices that will defy any and **ALL COMPETITION.**

I am determined to supply every Country Merchant, and also all Retail customers that come to this market with the ready cash. I have put the prices down so low as to make it a matter of impossibility for any house to offer the same inducements. It must be apparent to every one that I can do it—possessing the advantages that I do in purchasing, manufacturing and selling for nothing but Cash, or No. 1 City paper. The tremendous amount of business I do, will enable me to sell at a very small profit, which I always have done, and will continue to do. Residing in the City of New York, and manufacturing my own Goods, and having the advantages of the market—my brother, **CHARLES G. MARTIN**, conducting the business in St. Louis—and the long experience I have had in business the past sixteen years, enables me to get up a stock in a far superior style to any other.

My patterns are the best and most fashionable that can be had, and are warranted to set and fit as well as those that can be had at the most fashionable tailors.—This fall I will have over

**150,000 GARMENTS,** consisting of every style and pattern that will be worn.

Beware of being deceived by those who tell you "their's is Martin's"—for there are numbers that do, and are mean enough to stoop to anything. Bear in mind that my store is NO. 118, instead of NO. 114. The numbers on Main street having been altered, makes my store NO. 118. In front you will find the name in mammoth gilt letters—

**MARTIN.**  
On top of the house a large No. 118. I have the largest and deepest Clothing Warehouse in the west. And remember, that I have but one store in the city.

To Country Merchants.—All orders thankfully received, and warranted to be packed correctly, at the lowest cash prices. 'Tis no trouble to show Goods!

**JNO. T. MARTIN.**  
sept2
